Stable employment with advancement opportunities.

Work Experience

5S Coordinator

Corden Pharma - Boulder, CO

November 2021 to March 2023

Introduced the 5S system to the production side of the 4 plants at Corden Pharma. Organized tool boxes in order to have the right tool for the job without searching. Designated areas for spare parts needed to run processes. Work on many projects to make operators job simple and have easy access to what is needed to complete their task at hand while operating. Welding, pipefitting, and designing of materials in production areas. Maintenance in various areas of the plants.

Batch Operator

Corden Pharma - Boulder, CO

July 2020 to March 2023

Charge reactors with solvents from the Delta V and RS3 DCS systems. Charge reactors with powders and solids as required from the batch. Wear appropriate P.P.E. as indicated in the batch to do each job safely. Distill solvents through 2 condensers in receivers for concentration of product, purity of product, and/or removal of any unnecessary chemicals wanted in product. Reflux chemicals in the reactors for reaction completion of the product. Package finished product wearing the appropriate P.P.E. in the clean rooms as indicated in each batch. Dispose of hazardous waste to designated vessels. CPR, First Aid Medic, HAZWOPER, and forklift trained and certified though Corden Pharma.

Inventory Control Specialist

Boulder Scientific Company - Mead, CO

April 2017 to June 2020

Introduced and implemented the Kanban (Just-In-Time) system to the Pilot Plant and Production side of the plant for the way consumables are ordered and controlled in a lean fashion. Introduced the Kanban system to the Analytical, R@D, and QA sides of the plant where they've adopted the same manner they keep consumables in stock. The Kanban system is part of Kaizen (Continuous Improvement) organizing inventory.

Senior Batch Operator

Boulder Scientific Company - Mead, CO

September 2010 to June 2020

Charge reactors with widely used solvents through the PSM process. Handle and mix volatile chemicals such as pyrophorics 10 molar Butyllithium and grignards safely. Distill off solvents through condensers into receivers. Operate fractionated distillation columns as per batch requirements. Control reactor, condenser, and receiver temperatures with steam, water, or methanol/ethanol as per batch record

requirements. Troubleshoot for problems within batch records and making corrections with the Chemist for higher yields, saving time, extra effort not needed, and a better understanding of each task within the batch record. Take samples in batch processes and take to the lab or operate gas chromatography machines and Karl Fischer machines for the results. Follow LOTO procedures when needed. Wear appropriate P.P.E. as per batch regulations due to the wide range of chemicals handled. HAZWOPER and fork lift trained and certified.

Project Coordinator

Boulder Scientific Company - Mead, CO
September 2018 to May 2020

Introduced and implemented the 5S system in the spare parts area organizing and identifying the spare parts and where they belong. The system saves time searching for the spare parts needed in order to operate the batches in a timely manner.

Chemical Operator

Alcoa Alumina Refinery - Point Comfort, TX
January 2004 to December 2009

Operated TDC 3000 DCS controlling 5th unit operation. Assigned to the precipitation area; controlling seed levels in tanks to provide the best density for the best product. Ensured pumps and valves were at maximum flow capability. Troubleshoot problems within flows and implemented corrective action plans. Well versed within all area jobs in the precipitation area. Wore appropriate P.P.E. when exposed to caustic chemicals. Assisted in the procurement needs for the precipitation unit. Maintained a high standard for regulatory compliance, i.e.; MSHA, ISO 9001, and company safety policies. Licensed fork lift, skid loader, and crane operator by Alcoa.

Continuous Caster Operator

Alcoa Hot Rolling Aluminum - Elmhurst, TX
January 2000 to December 2004

Certified Hazelett continuous belt caster operator with 74" width casting capabilities with the Citect PLC. Certified Lauener continuous block caster operator with 68" width casting capabilities with the Rosemount PLC. Successful caster setups, startups, and shutdowns. Certified hot mill 1 and exit end operator. Operated entry end of cold mill when needed. Operated holder area when transferring metal and casting. Licensed fork lift and overhead crane operator with experience operating a front end loader.

Fiber Optic Technician

Red Simpson Inc - San Antonio, TX
January 1999 to December 2000

High Ranger bucket truck operator for enclosure retrieval. Preparation and splicing of fiber optic cable with Fujikura and Seicor fuse boxes. Fiber termination and testing with OTDR and power meters. Troubleshoot for problems within the fiber run and making corrections.

Groundman/ Heavy Equipment Operator

Mike J. Thiel Inc. Power Lines - Cheyenne, WY
January 1994 to December 1997

Preparation of hardware for clipping and sleeving transmission wire. Operated a Manitex bucket truck to assist lineman with dead ends and clipping. Observed lineman for their safety and quality of work. Operated cranes, bulldozers, and front end loaders.

Education

Front Range Community College - Longmont, CO, US
September 2013 to November 2014

Muscatine Community College - Muscatine, IA, US
January 1999 to August 1999

Skills

- Kaizen (10+ years)
- Materials handling
- Crane
- Lean Manufacturing
- Karl Fischer
- MRP
- ISO 9001
- Hazmat
- Kanban
- Logistics
- Project Coordination
- Gas Chromatography
- Packaging
- 5S
- Good Manufacturing Practices / GMP
- Bucket Truck Experience
- Welding
- Lean

Certifications and Licenses

First Aid Certification

AED Certification

Forklift Certification

CPR Certification

Hazardous Waste Operations & Emergency Response Training
