Additional Information

I worked for gingerbread house bakery from 2010-2014. I did some mixing of donut batter, did the frying, frosting, and packaging of the donuts. After donuts were done I helped on the bench cutting dough for buns, bread, and specially items. Though it's been awhile since I've worked in a bakery, it wouldn't take me much to get back into the groove. Give me a chance and you won't regret it!
