Additional Information

Looking to be challenged in a positive work environment. Am very interested in learning new skills and procedures to enhance my knowledge and career at your company. Excellent at training other employees on machine setup, production, troubleshooting, proper measuring techniques, reading and interpreting blueprints and tolerances, proper paperwork filled out correctly, noticing tool wear, and following shop safety procedures. I have excellent written and verbal communication skills. Have previous experience in hiring, training, supervising and placing a team of 20+ employees in positions that best suit their skills and capabilities. I have references and verified skills on a saved file if wanted or needed.
