Work Experience

Midstream Operator

Anadarko/Occidental Petroleum - Platteville, CO

November 2018 to Present

I am responsible for working with gas compression stations. We are required to be able to know process flow systems, keep and make sure our stations run efficiently. Each station also has Dehy's which is our responsibility as well. We take care of the daily maintenance of our equipment as well as look for any issue that might arise and fix them in an efficient manner.

Nov. 2018 - Current

Warehouse Manager I

Kimbel Mechanical Systems - Loveland, CO

October 2015 to November 2018

am responsible for managing inventory levels, hitting inventory goals, loading and unloading of inventory and working with the field team to ensure they have everything they need for their daily tasks. Previous I worked in Project Management running our Little Rock and Memphis Markets for our Commercial Housing Division. Running commercial projects and working with GC's to stay within budgets.

Oct. 2015 - Nov. 2018
