---

My name is Jesse Trujillo and I am a young ambitious, hardworking man. I enjoy spending my family as well as travel. I am a father to one handsome boy who is defiantly a hand full. I also regret to inform you that I do have a criminal history that dates back almost 10 years. In the years 2010 and 2011 I was convicted of 3 felonies. Those being theft by receiving stolen property, possession of an illegal narcotic, and also motor vehicle theft. I was foolish to say the lease in my past. I was taught to be better than that but I failed. But I was also taught to learn from my mistakes and always thrive to be a better man witch I continue to do happily and without fail since. I completed 3 years of community corrections and was happy to put all that behind me. I do not let the past define me. I do my best at being great for my wife, son, and myself.
