Work Experience

Waste Water Treatment Technician

Koppers Inc. - Denver, CO

August 2017 to September 2020

Inspected the tanks as they arrived, following safety measure involving derails, safety signs, and platform. Heated up the oil inside using steam to get it ready to transfer to storage or treating cylinder.

Waste Management, Koppers Inc - Denver, CO

May 2017 to August 2020

- Collected and analyzed pollution samples such as ground water.
- Manage successful environmental cleanup tasks while observing all safety protocols and wearing correct protective gear.
- Disposed of hazardous waste, including creosote oil and chemical products, in appropriate receptacles for safe containment and removal.
- Supported operations and maintenance at treatment plant, including troubleshooting equipment and completing basic repairs.
- Inspected facilities to determine level of company compliance with federal regulations regarding chemicals and substances in use and reported violations to proper authorities.
- Collected samples of groundwater to test for environmental pollutants.

Production Machine Operator

Advanced Forming Technology - Firestone, CO

June 2012 to April 2014

- Operated a metal injection molding machine to make gun parts.
- Thoroughly inspected each part to meet specific requirements. Use microscope to inspect for damage to parts.
- Trimmed excessive material using an exacto blade tool.
- Cleaned machine every 20 mins to keep parts from cracking. Also inspected molding template and injectors.

Assistant Lead

Claremont Foods - Niwot, CO

May 2011 to November 2011

- Identified operational and performance issues and worked with managers to resolve concerns.
- Resolved interpersonal conflicts by listening, finding common ground and building relationships.
- Worked closely with team members to deliver project requirements, develop solutions and meet deadlines.
- Motivated and encouraged team members to communicate more openly and constructively with each other.
- Assisted lead with machine issues to resolve in a timely manner.
