## Work Experience

---

### **Welder/Fabricator**

DTF Welding Services - Brighton, CO

July 2020 to Present

Currently building residential and commercial handrails . Fabricates, assembles and welds structural metal products such as framework, beams and columns . Also equipment repair.

### **100% X-ray pipe welder**

Intermountain Electronics - Denver, CO

October 2019 to Present

I currently am a pipe welder. 1" to 16" spool pieces. Every job is 100% X-ray. In between job I help out on the .structural side building house and skids. I am a all around welder mig tig and stick.

### **Welder Foreman**

RK Mechanical - Henderson, CO

January 2017 to April 2018

I started out welding pressure vessels for RK mechanical for about 6 months. After the 6 months I became a vessel foreman. Tasked with making sure the welder had the tools to complete the jobs by dead lines. That being said I was a working foremen to help out in areas we were short staffed or just lacking the speed and experience. At RK I completed my first and second year of pipe fitting credited through ETC.

### **Welder**

Leed fabrication

February 2010 to May 2016

In the seven years I worked at leed fabrication I built oil separators from start to finish. I started out doing rig out and hydro for about a year. Then I accomplished my 3G pulse and became certified to weld. Shortly after I was certified for 6G pulse and 6G stick. Being proficient at stick welding I then was given the opportunity to have my own welding truck and I started welding spool pieces and coils. Giving me 4+ years of pipe fitting experience. Left leed for 2 years in 2016 do to lay off . Returning at the end of 2018
