Work Experience

Machinist Operator

Custom Machining Corp - Englewood, CO

August 2014 to April 2020

I learned and expanded my machining experience at custom. I can program, set up and run a wire edm. Set-up and operate cnc mills. Operate cnc lathes. I am skilled at running a he&m saw. I gained experience with laser etching part numbers. I became proficient in inspection and quality control. I have experience polishing, using a honing machine and manual mill. I've done some light assembly work. Ve gained extensive experience in shipping and receiving. As well as managing inventory. I have been successful at managing outside processes including, writing purchase orders and making sure production deadlines are met. I gained more experience driving large trucks and large cargo. I became very skilled at driving a forklift. I also managed recycling of scrap material. I was the supervisor of the second shift, and a key holder who closed every night
