- Industrial Maintenance technician (2 years)
- Automation technician duties also
- R.I.M molding (troubleshooting, Plumbing, Preventative Maintenance)
- Plastic injection molding
- Abb robotics
- Fanuc robotics

ADDITIONAL COMMENTS:

- **In total went from Preventative Maintenance technician was promoted to Maintenance technician. Have been in mostly Automotive industry for just under 6 years. Every place I have worked I have noticed I am a strong asset to any team whether it be trouble shooting and identifying issues to repairing small to large industrial equipment. Very quick learner and not scared to ask questions to make sure I can finish my work to its fullest potential.**
