Objective:

To further my career with an established manufacturing company where my inspection talents and expertise may be used to increase productivity and profits.

Experience:

SCSI (Supply Chain Services International) at Caterpillar Joliet, IL October, 2016 to present
Quality Assurance Inspector – Inspection of heavy equipment hydraulic valve components to blueprint specifications. Enter measurements into excel spreadsheet. Hold out non-conforming parts for rework or to be scrapped. Tools used; micrometer, caliper, height gage, sweep gage and other gages.

Tower International, Chicago, IL November, 2010 to September, 2016

Assembly Operator - Load quality parts into assembly line for robot assembly of front structure automobile parts. Check for quality of parts before loading and after fabrication. Maintain work area and stock necessary parts for production. Assisted other areas such as rear floor, crush cans, and y-braces when necessary
Operated electric floor jacks and forklift trucks.

Greenlee's Filters, Forest Park, IL July, 2008 to August, 2010

Quality Control Technician - Worked with all types of measuring tools such as, hole gauges, thread gauges, micrometers, calipers, and comparators. Checked incoming materials – steel, bolts, nuts, thermoformed parts, and filter materials using prints and drawings. Did beginning, in-process and final inspections to ensure parts were intolerance. Generated inspection reports as well as returning parts that were out of specification.

Alpha Machine Corporation, Tinley Park, IL May, 2006 to June, 2008

Machine Operator - Operated automated CNC machines. Quality control on manufactured machine parts.

In-Tech Direct, Northbrook, IL September, 2005, to May 2006

Quality Control Inspector - Worked with bar code scanners, card counters, and encoding scanners. Maintained spreadsheets and reported results utilizing all Microsoft office software

Metavante Corporation, Willowbrook, IL March, 2005 to May, 2005

Machine Operator - Produced credit and debit cards

Sweetheart Cup Company, Chicago, IL November, 1988 to October 2003

Trainer, Machine Operator, In-House Scheduler and Production Planner

Operated punch press, utilized power and hand tools, multi-meter and electrical test equipment. Operated all motorized fork and clamp trucks, floor scales, overhead cranes and hydraulic lift. knowledge of basic electrical, pneumatic and hydraulics –grinder, gear pullers, drill presses, pneumatic tools, micrometers, calipers, depth gauges and thickness gauges, blueprint reading. Trained employees on technical production

Education:

DeVry University, Tinley Park, IL March, 2004 to March 2006

Classes in Electronic and Computer Technology (ECT). 24 credit hours

Deans List

Caterpillar University, Joliet, IL November, 2016 and October, 2018 and January, 2019

Reading Caterpillar Prints (08E 0170)

6 Sigma Green Belt certification, and using 3D printers.
