Education

East Carolina University

BA in History – Graduating Dec 2023

- Researched, edited, and wrote academic papers for publishing purposes.
- Well-versed in how to design and present research in an engaging and thorough manner.
- Capable of performing under deadlines and pressure due to the fast pace set by higher level history courses.
- Experienced in thorough and critical interrogation of underlying themes presented within any text, fictional or nonfictional.

Work Experience

Freight Handler at FedEx Freight

August 2022-Current

- Utilized a forklift, pallet jack, or handload techniques to safely unload short trailers and load long trailers for outgoing deliveries. Learned how to operate multiple pieces of industrial equipment in a short period of time, such as forklifts and hostlers.
- Secured hazmat freight into trailers using straps and beams when needed.
- Recorded any damages or notable variances in the condition of the freight as it was unloaded onto the dock. Able to read and understand shipping information through firsthand experience as a loader.
- Used excellent communication skills to keep myself and others safe while loading and unloading dangerous freight.
- Maintained the cleanliness of the dock by sweeping out trailers and blowing off debris.
- Extensively trained in proper handling of hazardous materials, as per OSHA and DOT regulations.
- Lifted and palletized any loose or damaged freight using a combination of machine and manual labor.
- Experienced in the fast-paced work environment inherent to the LTL business.

Business Consultant for RISE29 at ECU

Jan 2019 – Dec 2019

- Developed and maintained a professional relationship with two separate clients as a business consultant. Developed skills in customer service by listening to clients and helping them reach their goals.
- Examined trends in North Carolinian and US agriculture markets to determine where there were potential market gaps that NC could utilize.
- Worked to uplift the Eastern 29 counties of North Carolina by aiding the fostering of business and industrial growth within them.
- Created a heavily researched and well-argued business plan using my experience in MS Office products.
- Helped earn the Excellence in Co-Curricular Innovation Award for the RISE29 program at the United States Association for Small Business and Entrepreneurship.
