Work Experience

Mechanical Assembler

Woodward, Inc. - Fort Collins, CO

February 2022 to Present

- Assemble and/or perform preset calibration/final testing. Performs low to moderately complex assembly and test. Products may include but are not limited to small products, light subassemblies, and/or complete units of a smaller size.
- Assemble, install, align, adjust and fit subassemblies and parts or auxiliary equipment using appropriate tools and equipment as per work instructions.
- Clean parts and maintain tooling and equipment per proper work instructions.
- Follow work instructions associated with assembly skills to become certified for work being performed.
- Work with close tolerances and fits to meet engineering and operating requirements.
- Pick and/or stock parts from point of use in stock rooms and places completed parts. (In Duarte, Stockhandlers perform these functions.)
- Complete all required paperwork in an accurate and efficient manner, including Quality Assurance and Test Record.
