## Work Experience

---

### **Trimmer/Packer**

Checkers Safety Group - Broomfield, CO

October 2020 to February 2021

I was a trimmer and what trimmers do they cut the edges of the silicon to get rid of any extra mold. Afterwards we would put the silicon that we trimmed on a pallet. Once we have a good amount on the pallet i would switch over to another station and then i would box the silicon and place that on a different pallet and then wrap the whole boxes and sending them to a shipper to handle the rest from there and then from there its the same thing.

### **Assmbly**

Roucky mountain drive shaft - Arvada, CO

March 2020 to October 2020

What i would do is take the customer driveshaft that they brought in for new parts or a whole new driveshaft and i would put in the new parts that the customer wanted or build a new shaft and we build shafts by cutting a metal pipe the same size that the customer brought in then add parts to it and after we finish that part we work on other driveshaft

### **Inventory**

RFI Ingredients - Broomfield, CO

August 2019 to December 2019

I would go around the warehouse and do counts on our product to see how much product can be used for blending and i learned how to drive a forklift as well. I also helped my team take down racks and build them back up i walked around the whole warehouse and do counts on every rack.

### **Assmbler**

Frictionless world - Broomfield, CO

September 2018 to December 2018

I would build lawnmowers and build log splitters as well and i know how to operate electric tools and tools in general.

### **Package Handler**

Allen Company - Broomfield, CO

May 2018 to June 2018

I would staple labels on the side of gun holsters and then once they are stapled to the holster I would put them in boxes and after that I would tape up the box and someone would pick up the finished product and puts it on a cart and take away to get it shipped

## **Package Handler**

Izzio Artisan Bakery - Broomfield, CO  
October 2017 to April 2018

So what I did was package frozen bread and I also worked in a conveyor belt but I put frozen bread that we put bags in and afterwards put the bags full of frozen bread into a box we table the box and put them in a refrigerator and ready to ship out to local stores

## **McDonalds Cashier**

BOSELLI investments - Thornton, CO  
September 2016 to November 2016

It was okay all I did was cashier and hand out the customers food it was a fun experience to learn how to work as a cashier. But every time we start we gotta make sure everything in front is clean.

## Education

---

## Additional Information

---

I have a lot of work experience. At first I will be slow because I'm learning what I have to do and how to do but after I get the hang of it I'll start to work a bit more faster. I'm a hardworker and I'm never late.
