SUMMARY

Operations and Distribution Leader with over 20 years leading complex warehouse environments, enterprise inventory systems, installation programs, and cross-functional logistics. Delivers transformative improvements in cycle-count integrity, shrink reduction, safety compliance, and operational readiness. Recognized for designing scalable processes, developing leaders, and elevating customer experience through disciplined execution.

CORE COMPETENCIES

- Safety & Compliance (OSHA, Risk Controls)
- Team Training, Coaching & Performance Development
- Vendor & Subcontractor Management
- Warehouse Operations Leadership
- Multi-Site Warehouse Operations Leadership
- SOP Deployment, Process Optimization & Lean Improvements
- Inventory Accuracy, Reconciliation & Loss Prevention
- Scheduling, Scaling & Resource Allocation
- Advanced Cycle Counting & Inventory Valuation
- OSHA Compliance, Safety Programs & Risk Controls

PROFESSIONAL EXPERIENCE

PSS Industrial Group - MRO Pricing & Project Manager (2021–2025)

- Led pricing governance, contract agreements, and margin strategy for high-volume industrial operations.
- Strengthened inventory accuracy and procurement workflows, reducing discrepancies and optimizing billing.
- Standardized catalog data, improving traceability and reporting quality across the organization.
- Coordinated with operations, warehouse, and vendor teams to support project readiness and material availability.

WB Supply - Inventory Control Specialist (2019–2021)

- Owned inventory accuracy through ABC analysis, valuation, cycle counts, and variance reduction.
- Created standardized nomenclature, improving traceability and reducing mis-picks and reorders.
- Recovered dead stock and reduced carrying costs, improving overall inventory health.
- Played a key role in enterprise ERP rollouts, leading cross-functional testing, data accuracy validation, and end-user training to ensure smooth adoption and process continuity.
- Led and participated in Kaizen and continuous improvement events, redesigning workflows, eliminating waste, and standardizing procedures across warehouse and inventory operations.

WB Supply - Assistant Store Manager (2004–2019)

- Actively managed a 24/7 group of 30+ team members
- Managed warehouse operations, logistics, and daily workflow
- Improved cycle counting discipline, inventory turns, and material handling accuracy.
- Oversaw receiving, scheduling, customer coordination, and installation-related operations.
- Maintained safety compliance, risk controls, and security protocols to prevent loss.
- Served as a test site for SOP deployment and operational improvement initiatives.

WB Supply - Earlier Roles (2000–2006)

- Supported order workflows, replenishment cycles, and customer warehouse operations.
- Improved stock accuracy through disciplined cycle counting and audit practices.
- Strengthened billing accuracy and reduced exceptions through process alignment.
