Experience

Helper

Colorado Drywall Supply

May, 2017 — August, 2021 (4 years 3 months)

Help deliver drywall to anyplace that is needed from busy contractors building an skyscraper to a couple remodeling their bathroom. And when I was assigned to the yard (warehouse) I loaded & unloaded semis with drywall & a large inventory of building materials. Loading a semis sounds easy, tho its also very easy to mess up. Also I was organizing the yard & making space for new materials coming in. So handeling a forklift for me is like Manning with his football. All I'm asking for is an opportunity to show, I can & will complete my assignments @ work with out any problems.
