I've been working for the last 10 years of my life, since my mom couldn't afford childcare, all my day offs, school breaks and weekends were spent helping her. She made sure work ethics was going to be a strong trait of mine. Ever since then, I've been working every chance I got; I ever worked overnights demolition overnight on school nights and kept my gpa at a 3.5 avg.

Authorized to work in the US for any employer
