## Work Experience

---

### **Production Supervisor**

Lockheed Martin - Denver, CO

June 2020 to Present

Leading a team of 50 employees covering manufacturing and chemical engineering, machining, test tooling fabrication, and surface finishing/coatings (including management of a Chemical Laboratory)

- Lead a team of 15 engineers focused on process improvement, totaling over 3.5 million in annual cost savings and avoidance
- Stood up a new team of 14 technicians in the Prototype Development Center for surface finishing and coatings development
- Served as the Vice President of Community Relations for the Waterton campus, organizing volunteer and community outreach events for over 8,000 employees.

### **Operations Manager (Company Commander)**

United States Marine Corps - Camp Lejeune, NC

December 2018 to June 2020

Lead a team of 150 people, providing logistical support to over 4,000 servicemembers conducting training and deploying to the Middle East and East Africa.

- Developed operating procedures and directives for a newly activated military unit of 150 logistics personnel.
- Cultivated culture that empowers subordinate leaders and fosters creative logistics solutions through hands-on leadership of 12 senior staff members with over 150 years of collective military experience.
- Responsible for accountability, repair, and employment of \$27 million of military transportation, power development and distribution, material handling, and expeditionary food processing equipment.

### **Supply and Sustainment Director**

Camp Arifjan - KW

January 2018 to November 2018

Established a 30-man team in Iraq to oversee redistribution and retrograde of over \$5 billion worth of military equipment.

- Globally sourced over 73km of concertina wire and 40km of HESCO barriers in support of military counter-ISIS operations in Syria, sourcing from 7 different countries including Germany, Bahrain, and South Korea.
- Supervised the distribution and warehousing of \$29 million worth of prepositioned repair parts for military equipment in Kuwait, Iraq, and Syria.
- Reduced average customer wait time in Western Iraq from 71 to 45 days over the course of six months by conducting a detailed process mapping and improvement project. Established a 6 man team to track parts from U.S. source of supply, through each node and mode of travel, to the end users in Iraq and Syria.

### **Maintenance Manager**

Camp Lejeune, NC

February 2017 to December 2017

Managed user access to an Oracle database, monitoring over 250 user accounts for proper access and 15,000 service requests for adequate and timely sourcing solutions.

- Supervised and audited digital transactions totaling over \$9 million of requisitions.
- Authored command policy letters on maintenance management, inventory control, and personnel training and inspected unit adherence to said policies; briefed the Commander on solutions to maintenance and requisitioning issues identified.
- Travelled to higher echelon repair parts facilities on monthly (regional) and quarterly (national) basis to reconcile requisitions and identify new sourcing solutions.

### **Transportation Manager**

Camp Lejeune, NC

May 2015 to January 2017

Led 84 people providing transportation support and vehicle maintenance to over 900 service members conducting training in preparation for deployments to the Middle East and Mediterranean Sea.

- Conducted process improvement project that resulted in 16 monthly man hours saved in a vehicle maintenance unit made up of 8 mechanics.
- Responsible for accountability, repair, and employment of \$55 million dollars of military transportation equipment.
- Developed a six-month training program focused on timely logistics solutions in a highly uncertain environment with significant enemy activity and capability.
