Work Experience

Picker/packer/receiver/shipper/warehouse receiving manager

LuvBuds, LLC - Denver, CO

December 2021 to August 2022

When I first started my responsibilities were to use RF scan gun to pick items by sku or item number. Got promoted to receiving side 5 days in to job.

As a receiving employee we were required to break each pallet we received. Separate, count each item by sku, and print labels for the item and stage it to put it away after supervisor checks in. I trained a total of 4 employees for this company and made sure they have the right information to be successful at their job

I have an excessive amount of experience in working under stress and adapt to any new process introduced to me. I am forklift certified I have at least 3 yrs on sit downs stand ups. I've used a cherry picker at least a dozen times. Willing to learn any job above me and teach my job to the ones that want to learn.
