April 2021 to December 2021

- Ran three processing and filling machines, preventive maintenance procedures were followed weekly and monthly as well
- Kept hourly reports and job order fillings per work order and also for inventory used per job
- Worked with quality control and shipping department closely to keep products up to Dover standards and keep production flowing smoothly
- Worked on assembly line when needed, built pallets manually then loaded pallets safely to ship out.
- Use of power tools, hand tools, gages, scales, and tape measurer were used everyday
- Drove stand up, sit down fork lift as well as Cherry Picker fork lift

Finishing Lead

Cozzini Bros., Inc. - Cerritos, CA

January 2020 to January 2021

- Manage the daily work of nine employees in my department
- Keep a detailed inventory of the material used in my department, as well as the work being produced
- Report directly to the owner the progress and work ethic of my employees, make difficult decisions if the employee is under performing
- Use a scanning system to check in boxes and direct them to the next step of production after work is complete
- Responsible for the up keep and order of my entire department, the standard is excellence.
- Master of stone wheel, used to sharpen chef quality knives, as well as buffing wheel and honing stone

- Hourly usage of Microsoft excel for precise detail of the work done within the shift.
- Use of tape measurer, hand tools as well as power tools is required and done professionally everyday

Finisher/ CNC Operator

FILTECH - Torrance, CA

November 2018 to November 2020

- Operated and loaded CNC machine based on a pre set program
- Adjusted the X and Y inputs during run time to keep program running accurately
- Kept inventory and hourly reports of the time and progress of all machined parts produced
- Used calipers, thickness gages, and taps to make sure all machined parts were within qualifications for completion.
- Polished stainless, high alloy, low alloy and aluminum steel after welding
- Deburred and polished all welded and machined parts per blue print read outs.
- Kept up daily reports and inventory control of all finished parts in Finishing department.
- Grained all finished stands and specialty parts to customer and Fil tech professional standards.
- Operated a forklift
- Used air and power tools everyday.
- Used saws, tape measurer, tap guns and power drills when required per blue print read out.

Hydraulics Technician/ Assembler

Advanced Ground Systems Engineering - Santa Fe Springs, CA

September 2016 to November 2018

- Set hydraulic pressures for engine and hydraulic valves.
- Bent, cut and crimped metal tubing formed to the exact specifications to the frame build or blueprint.
- Used all types of saws and power tools.
- Crane and forklift operator and driver
- Trained new employees on the assembling side of setting up an engine stand.
- Trouble shot and bled hydraulic systems on individual engine stands so the stand would rise and lower to AGES professional quality.
- Kept hourly reports and verified all steps of trouble shot process.
- Precise blueprint reading.
- Used nuts, bolts, screws, locks and washers every day.
- Used power tools everyday.

CNC Operator
