Work Experience

Tool & Die Maker/ CNC Programmer/ Leadman / Quality Control

East Tennessee Machine - Oak Ridge, TN

January 1995 to December 2022

- # Program, set up, and operate CNC lathes and mills.
- # Design, manufacture custom designed machines, fixtures and tooling for local manufacturing companies on CNC's and manual machines.
- # Lead quality control Inspector
- # Train and assist all machinist.

CNC Programmer/Leadman / Quality Control

Prime Technologies Inc. - Knoxville, TN

January 1990 to December 1995

- # Manufacture precision parts on all manual equipment.
- # Program, set up, and operate CNC lathes and mills.
- # Design and manufacture all fixtures and tooling required.
- # Lead quality control inspector
- # Train and assist all machinist.

CNC Programmer/Machinist

Carr Instruments - Houston, TX

January 1988 to December 1990

- # Program, set up, and operate CNC lathes and mills.
- # Design and manufacture all fixtures and tooling.
- # Manufacture precision parts on all types of conventional equipment.

CNC Programmer/ Machinist

Knust SBS - Houston, TX

January 1985 to December 1988

- # Set up, edit and prove all new programs on CNC lathes and mills.
- # Manufacture precision parts on all conventional equipment.
- # Set up and operate OD/ID and surface grinders.

CNC Machinist

Wilson Downhole Repair - Houston, TX

January 1982 to December 1985

- # Set up, edit and prove all new programs on CNC lathes and mills.
- # Manufacture precision oil field related tooling and parts, including API tapered threads, Hydril and Acme threads

Manufacture precision parts on all conventional machines.

Machinist

Joy Manufacturing - Houston, TX

January 1980 to December 1982

Manufacture precision oil field related parts on VTL's, lathes, mills and Bridgeports.

Education

Associate

Pellissippi State Technical Community College - Knoxville, TN

1990 to 1994

High school diploma

Oak Ridge High School - Oak Ridge, TN

1974 to 1978

Skills

- Highly experienced on many types of CNC lathes and mills including Okuma, Mazak, Haas, Fadal and Mori-Seiki.
- Proficient on all machine shop equipment.
- Thorough knowledge of GD&T principles and mathematics.
- Specialized in designing and manufacturing fixtures and tooling.
- Highly developed mathematical and analytical skills.
- Quality Control (QC) experience of over 35 years
- Over 35 years of job shop experience
- Extensive experience in Okuma IGF programming, G-Code and conversational controls.
- Experienced on OD/ID and surface grinders.
- First class problem solver.
- Familiar with all metals, tool steels and alloys.
- Experience in aerospace: 25 years
- Calipers
- CNC Milling Machine
