OBJECTIVE

To secure a position with a well-established organization and exercise my skills and abilities.

WORK EXPERIENCE

GE/Albeo, Longmont, CO US 11/2017 - 07/2018

Wiring and assembly

Responsible for moving light fixtures across an assembly line, following wiring diagram guide lines, and build specs according to customer specifications. As well as electrical testing and packaging to maintain quality.

PTA Plastics, Longmont, CO US 05/2017 - 09/2017

Machine operator

My responsibilities were operating various injection molding machines. The job requirements included checking to make sure parts coming off the mold were within specified tolerances. The next step was to perform light finish work as well as final count and product packaging.

SAE Circuits CO, Gunbarrel, CO US 05/2006 - 01/2017

Screener/Dry Film

As night shift lead my job duties consisted of moving different customer orders through the screening dept from start to finish. Beginning an order involved pre-prep on copper or gold plated circuit boards. Requirements were chemical-cleaning or light brush scrubbing. The next step was to apply a coating of LPI Ink using a DP 1500 coater. Circuit boards were completed by curing solder mask ink then exposing and developing.

EDUCATION

GED Denver, CO US

Adult education classes to receive graduation equivalency diploma.

SKILLS

Experience in working with chemicals/use of power tools and heavy equipment. Knowledge of computers. Use of quality assurance tools. Quality control. Experience in electrical assembly and testing continuity. Experience in residential painting/construction.
