Work Experience

Lab Technician

ALS Minerals - Reno, NV
February 2016 to May 2019

Maintain proper data logs of sampled sediments including, grain size, depth of core sample and possible cross contamination sources. Test prepared core samples to ensure proper pulverizing technique has been performed in order to meet laboratory analysis requirements.

Warehouse Order Selector

Compass Group - Reno, NV
August 2012 to June 2016

Unload, unpackage and document all incoming deliveries, insure all ordered items are accounted for. Match all paperwork and receipts. Insure product was placed in proper storage for redistribution to each proper client.

Warehouse Clerk

Joan Fabrics - Sacramento, CA
July 2011 to July 2012

Unloaded incoming trucks, scan and arrange deliveries promptly. Prepare orders for outgoing trucks. Scan each loaded item and check to ensure all ordered product was on each truck and accounted for.
