- Foreign Language

Experience

coater machine operator

Sep 2016-Oct 2017

Arlon Inc - Rancho Cucamonga, CA

- Observe machine gauges and equipment operation to detect defects or deviations from standards, and make adjustments as necessary.
- Determine resin flow, viscosity, and coating quality by performing visual inspections, or by using viscometers.
- Weigh or measure chemicals or powders before adding them to batch.
- Set up and operate machines to coat products with such materials as resin, fiber glass, thermount, and kevlar.
- Turn dials, handwheels, valves, or switches to regulate conveyor speeds, machine temperature, air pressure and circulation, and the flow of resin.
- Record operational data on specified forms.
- Start pumps to mix solutions and fill tanks.
- Fill hoppers, reservoirs, troughs, or pans with material used to coat.
- Perform test runs to ensure that equipment is set up properly.
- Clean machines, related equipment, and work areas, using water, solvents and other cleaning aids.
- Start and stop operation of machines, using levers or buttons.

Aseptic Machine Operator

Sep 2012-Dec 2015

Bard Davol inc. - Irvine, CA

- Provide skilled support within the manufacturing production environment.
- Inspect finished product for quality.

- Make adjustments using gauges, calipers, and oip panel.
- Fill out proper documentation for process such as batch record.
- Changeover and setup of filler, capper, and stoppering system.
- Work on sub-assembly line using automated, pneumatic, and hand tools.
- Cleaning of equipment and fill room used for production.
- Perform line clearance begging and end of run.
- All work performed according to (sop) using (cgmps) and aseptic technique.

aseptic operator 2

Sep 2000-Dec 2010

Teva Pharmaceuticals USA Inc - Irvine, CA

- Provide skilled support within filling production department.
- Gown for class 5 clean room environment.
- Prepare equipment and components for specific production runs.
- Sanitize all surfaces prior to line clearance.
- Perform changeover and setups on fillers, cappers, stopper system according to bill of materials following sops and using good cgmp's.
- Tear down all equipment used for run transferring equipment to component prep and perform cleaning of entire fill room.
- Connecting and disconnecting transfer lines and tubing leading to tanks or kettles either for production run or cleaning cip or sip.
- All work performed using aseptic technique.
- Perform fill volume checks and crimp stopper inspection throughout run.
- Submit samples to quality control before run.

Compounding Tech.

Feb 1997-Apr 2000

Allergan - Irvine, CA

- Weigh or measure materials, ingredients, or products to ensure conformance to requirements.
- Start machines to mix or blend ingredients; then allow them to mix for specified times.
- Dump or pour specified amounts of materials into machinery or equipment.
- Operate or tend machines to mix or blend any of a wide variety of materials, such as powders, waxes, chemicals, color pigments, or explosive ingredients for cosmetics.
- Observe production or monitor equipment to ensure safe and efficient operation.
- Stop mixing or blending machines when specified product qualities are obtained and open valves and start pumps to transfer mixtures.
- Examine materials, ingredients, or products visually or with hands to ensure conformance to established standards.
- Open valves to drain slurry from mixers into storage tanks.
- Unload mixtures into containers.
- Dislodge and clear jammed materials or other items from machinery or equipment, using hand tools.
- Clean and maintain equipment kettles, holding tanks, surge tanks, hoppers, pumps, misc items, and transfer lines clean in place and steam in place

cip and sip.

- Collect samples of materials or products for laboratory testing.
- Record operational or production data on specified forms.
- Transfer materials, supplies, or products between work areas, using moving equipment or hand tools.
- Tend accessory equipment, such as pumps or conveyors, to move materials or ingredients through production processes.
- Read work orders to determine production specifications or information.

Education

general course

Valley High School - Santa Ana, CA
