### **PROFILE**

- Experience and Knowledge of Medical Devices, Products and Components in a manufacturing and quality environment
- Knowledge of GMP's, SOP's and ISO 13485 standards
- Desire and ability to work effectively and efficiently in a team environment
- Ability to multi-task and maintain manufacturing and quality schedules
- Assist in internal and external audits
- Able to Read, Write and Redline Processes, Work orders, Blueprints and Drawings
- Validations/ First article Inspections for OQ'S and PQ'S /Data collection and DOE (Design of experiments)
- Assist in disposition s of non-conforming material
- Suggest and assist with improvements for projects and processes for Quality, Yields, Safety and Ergonomics within the functional area(s)

**Computer Skills:** Microsoft Office, Word, Excel (charts, graphs and data collection and Blue Hill Software)

**Equipment/Measuring tools:** Calibers, rulers, scales, pin and ring gauges, Digital Microscopes with radicals and cameras, Keyence 360° Video Measuring Systems, (Bore scope) XYZ Angle Optical Comparator, Laser-Mics, MTS/ Instron pull tester and Micro-Vu Systems

### **EMPLOYMENT HISTORY**

**Quality Inspector      3/14 to present      Hypertherm (Aerotek) Arden Hills, MN**

Inspection of receiving parts for water jet cutting machines .Using Pin gauges, Thread gauges, Caliber, Optical Comparator, Microscope, XYZ Microscope. Ensure timely movement of product for production and sales.  
Update inspection processes and drawings. Assist in packaging and other areas where needed.

**Reliability Assurance Technician      6/11 to 4/13      Medtronic (Entegee Engineering Technical Group) Minneapolis, MN**

Prepare, set up and utilize equipment required to complete the assigned tasks.  
Follow Test plan closely, Inspection of devices and leads before, during and after testing, Data collection and identify failing conditions per test plan. Provide accurate oral/written test results communications and deliverables to Engineers/Managers in a timely manner.

**Quality Inspector/ Technician      7/10 to 12/10      St Jude Medical (Aerotek) Maple Grove, MN**

Inspection of shipping and receiving of medical products, paperwork /work orders/labels for legible, accuracy and lot traceability.  
Ensure timely movement of product for sterilization, Reviewed Documents for ETO/Final Release  
Tested and record data for deployment and moisture testing of devices  
Validations/ First article Inspections for OQ'S and PQ'S /Data collection

**Quality Inspector/Technician      6/04 to 3/10      CarTika Medical Plymouth, MN**

Quality Inspections for Set-ups, Incoming, in-process and final inspection products per documented procedures  
Review paperwork /work orders for legible, accuracy and lot traceability  
Ensure timely movement of material through quality inspection  
Expedite projects with guidance of Engineers. R&D projects, Validations/ first article Inspections for OQ'S and PQ'S /Data collection Assist in internal and external audits

**Manufacturing Technician      3/86 to 2/04      American Medical Systems Minnetonka, MN**

Provided support for five (5) manufacturing and quality teams. Daily team meetings  
Measured performance by generating weekly yields for quality performance in Excel (charts and graphs)  
DOE (Design of experiments)  
Provided leadership, training and support through team work and team building skills

Worked closely with R&D, Quality and Manufacturing Engineers and manufacturing employee teams

**EDUCATION**

University of St. Thomas  
Hennepin Technical College  
High school

Leadership, Facilitator Skills, Team Building skills  
Basic Polymer, Chemistry, Blue Print Reading, Industrial Electrical one  
Diploma
