3788 South Hazel Court
Englewood, CO 80110

About Me

Well rounded professional with experience in all aspects of manufacturing. Specializing in Diversified CNC Machines including Mills, Laguna, Haas and others. Familiar with Silicon Wafers, Touch screen Technology, and Medical equipment. Self sufficient on QC, measurements, calibers etc. as well as material handling, assembly and more. Able to work well independently or in teams and learn new skills quickly.

Experience

Balseal- April-November 2022

CNC Machinist / Mills

Manufacturing medical screws and springs, adjusting machines during operation to maintain tolerance. Maintaining QC through scope during production. Setups, material and tool changes.

Richardson Metals- May 2020- March 2022

CNC Saw-Press Machine-

Making sure machines are properly set up and ready for production. Setting cut speed , cut length according to travel. Making sure all parts are checked with a caliber and weighed if needed.

Jabil - Feb 2019- April 2020

CNC Machinist / CNC Laguna

Operating 4 CNC machines to make Orthopedic screws. Using calipers and scopes to sample pieces throughout each lot to ensure accuracy and maintain specified tolerances
