Objective

Seeking a position where I can apply my energy, focus and willingness to learn at a company striving to achieve safety, precision and promptness in their laboratory operations.

Education

Millersville University, Millersville PA

May 2016

Bachelor of Science in Chemistry with Environmental Option

Skilled in Microsoft Word, Excel and PowerPoint, data entry, as well as lab exposure in the classroom and in the workforce with titration, extraction, gas chromatography, mass spectroscopy, Raman spectroscopy, atomic absorption spectroscopy, and liquid chromatography

Work Experience

Assistant Operations Chemist

Corden Pharma Colorado, Boulder, CO March 2022-April 2023

Worked to gain experience in a GMP pharmaceutical lab

- Assisted with restocking the lab and getting materials ready for the next step in a process
- Assisted with cleaning of lab equipment before the start of each step
- Helped with processes on a daily basis such as recording information in batch records, pouring up and charging solvents, weighing out materials and transferring solutions
- Reviewed batch records and documents before they are submitted to Quality Assurance

Lab Technician

John L Lowery & Associates, Inc, Contractor for ExxonMobil, Baton Rouge, LA December 2020-December 2021

Worked to gain experience as a lab technician in the oil and chemical industry

- Performed daily GC testing on a variety of middle distillates
- Used SetaVap machine to determine vapor pressure of gasses
- Used a variety of ASTM testing procedures on gases, diesel components and distillates
- Experience with HPLC, GC, GC-MS, Karl Fischer, UV-Vis and flash point

Associate Chemist

Eurofins Lancaster Labs, Lancaster, PA September 2019-January 2020

Worked to gain experience as a chemist

- Made solutions for other analysts for HPLC testing
- Performed visual checks on final pharmaceutical products

QC Technician

Hain Celestial, Sensible Portions May 2018-September 2019

Apex Life Sciences-Contractor for Sensible Portions, Mountville, PA August 2017-May 2018

Worked to gain experience as a lab technician

- Tested for salt, moisture, and fat content on finished goods
- Tested for packaging integrity on finished goods
- Generated holds on products that were not up to company regulations
