Subject: Mayra Flores Donis

Yesterday she come to asking me why I schedule her day off a lot . actually we rotate every one every 1 or 2 week 90% of the people will got rotate . except the key people that we don't have people train well enough to cover for them

Lead
Machine operator
Op check
Scan
Card applicator orics 6
The hopper guy
And mv1 ,mv2 tray feeder .

Everyone else will get rotate . she said I treat her not fair . I told her everyone will get rotate just make sure you able to work every spot and do a good job you might get least rotate , still rotate but least than the people that know how to work only one spot .

Note : we been training her on MV2 packing tray for 2 week she still not able to get better , so we switch her to work on orics 6 tray feeder to card applicator still could not keep up , so we move her to work on the apple filler on orics 6 because that a little slower .

Keep that as document please .

Thank you

Also, she yelled at our MV1 hopper filler guy as he was asking her to move out of the way today so he could get his cart through and all said to another employee working next to her " see, I told you so" in a very mean tone. I told her both issues are unacceptable and she agreed. She did say the other day that she thought Heng was picking on her and was going to report him to CMG.

Thanks
