- Finished with a 3.0 GPA
- Course work included chemistry, calculus and extensive biology.

Experience

May 28, 2015 – November 3, 2017

Landscape Technician | Aaron's Irrigation and Landscape Service | Leadville, CO

My responsibilities ranged from the simple like, mowing lawns, general labor and weeding to complex landscaping such as, following landscape design plans, fixing and installing irrigation systems, some general carpentry, equipment operation and floral design. Every year I was employed by this company, I got a pay raise for exceptional work and dedication.

November 5, 2017 – Present

Lumber CSA 4 | Lowe's Home Improvement | Fort Collins, CO

My responsibilities heavily involved forklift and heavy equipment operations. I was in charge of the freight in the lumber department, both heavy and light. This included unloading and loading trucks, rotating stock, rearranging to accommodate for stock, as well as general maintenance for racking and forklifts. I also performed general customer service tasks throughout the day. Within the time I have been working with Lowe's, I got promoted from a CSA 1, only dealing with

customers and general stocking, to a CSA 4 which is the department head CSA. I now train new employees and provide current employees with daily tasks. The new aspect to my job was attaining sales leads for projects that customers had.
