

Job Description

North Plant Start of Production Line

SUMMARY

Responsible for rotating between positions at the start of the production line. The duties of each position will include: inserting top label in lid, placing components in the correct position on the tray or insuring tape is applied to finished trays properly. If absent, another trained employee or trained backup will be scheduled to cover responsibilities for this position.

PRIMARY RESPONSIBILITIES

1. **Personal Protective Equipment Required (PPE):** hairnet and clean smock. Comply with GMPs (QA0402WI Hormel Good Manufacturing Practices), vinyl gloves.
2. Enter production room with hairnet on, wash hands and put on clean smock and gloves.
3. Adhere to company Employee Hygiene Practices, company food safety procedures and GMPs.
4. Other duties as assigned by the Production Supervisor and Production Manager.

Top Label Inserter

1. Insure the correct top label and tray lids are ready for use. Required materials can be referenced on Hormel Operational Product Specifications according to item number.
2. Place label face down into dome of lid.
3. Report any defects or discoloration of lids to the Line Lead, Production Supervisor, or QA Technician.
4. Take lid with label and with a quick motion, insert the lid under the static bar and remove. Insure you are standing on an anti-static mat while performing this task. Add lid to finished stack of lids to use in production.
5. Insure after any production run, labels are removed to prevent incorrect label from being used during the next production run.

Tray Filler

1. Insure the correct components are being used in production. Required materials can be referenced on Hormel Operational Product Specifications according to item number.
2. Report any defects (leakers, foreign material, light weight, or discoloration) of components to the Line Lead, Production Supervisor, or QA Technician and place in marked containers.
3. Place component in the correct position on the tray.
4. Press pouches down in black bins to insure they are flat and to prepare for the Product Bin Filler to supply additional component pouches.
