**Objective:** To secure a position with a well established organization that will provide me with the opportunity to enhance my skills and knowledge, while challenging me and giving me the opportunity for advancement.

**Work Experience:**

**U.S. Air Force**  
**Hill AFB, UT**

**May 2008 to January 2012**

**Missile Handling Technician**

- Handled, transported and stored \$1.38B in missile boosters for reuse in space launch and missile defense programs.
- Prepared rocket motors and transported propellant samples in support of aging surveillance testing/disposal.
- Managed safety, security and reliability of \$30M Missile Storage Area and over \$1.2M motor handling equipment.
- Performed depot related maintenance on missile rocket motors.
- Served as the Key, Lock and Controlled Area Monitor for classified facilities, assets, and equipment.
- Responsible for authenticating access requests to controlled classified facilities and assets.
- Collaborated with Security Managers to generate and update authorized personnel rosters to ensure they were current and compliant with US Air Force Security Standards.
- Ensured personnel accessing controlled classified areas were compliant with US Air Force Security, Safety, and Explosives Standards by providing briefings and conducting random inspections.
- Conducted AFI (Air Force Instruction) research on physical security requirements for the complex of controlled classified facilities in preparation for their scheduled and or surprise inspections to ensure compliance of Physical Security Standards.
- Managed, inventoried, and scheduled maintenance for calibrated tools(PMEL/TMDE).
- Assisted in the establishment of procedures for the transportation, handling, and storage of Navy Missile Systems.
- Transported and destroyed obsolete Army Missile Systems.
- Conducted pre-operation checkouts of Missile Transporter/Erector specialized vehicle.

**U.S. Air Force**

**Malmstrom AFB, MT US**

**January 2008 to May 2008**

**Pneudraulics and Mechanical Section Technician**

- Maintained 1,000 items of equipment supporting the Minuteman III Intercontinental Ballistic Missile mission.
- Preserved serviceability of 90 nuclear-certified handling gear pieces used for maintenance on priority-1 assets.
- Serviced and troubleshot hydraulic pushers, cylinder valve assemblies, leak test fixtures, and traverse cylinders.
- Inspected special-purpose vehicles; transporter erectors, payload transporters, and man-lift cranes.
- Conducted pre-dispatch safety briefings.
- Utilized organizational risk management tools resulting in 0 safety incidents.

**U.S. Air Force**

**Malmstrom AFB, MT**

**January 2005 to January 2008**

**Missile Handling Technician**

- Dispatched to 200 launch facilities in a 23,500 square mile complex to perform missile maintenance.
- Performed Minuteman III downstage removals and emplacements in support of wing's nuclear mission.
- Performed missile downrange roll transfers to and from Transporter Erectors (TE) and Missile Transporters (MT).
- Performed receipt inspections on Propulsion Replacement Program (PRP) downstages received from the depot.
- Shipped, received, uploaded, downloaded, and continually monitored Propulsion System Rocket Engines (PSRE).
- Operated, maintained, inspected, and tracked the section's support and handling equipment valued at over \$12M.
- Documented and validated maintenance actions performed and discrepancies noted on missile support equipment.
- Assigned as Test Measurement Diagnostic Equipment (TDME) monitor.

**U.S. Air Force**

**Malmstrom AFB, MT US**

**June 2002 to January 2005**

**Equipment Section Team Member**

- Provided reliable equipment to technicians for in-shop and dispatching maintenance of Minuteman III Intercontinental Ballistic Missile weapon systems at 220 launch/alert sites over a 23,500 square mile area.
- Responsible for accountability and serviceability of 5K equipment items valued at more than \$9.2 million.
- Performed inspections, routine care, and minor repair actions on all assigned equipment and support items.
- Processed equipment to the appropriate repair agencies; scheduled items for calibration/measurement.

- Configured, loaded, and unloaded nuclear-certified transporters, special purpose trucks, and support vehicles.
- Operated a multi-terminal computer system to track equipment location, condition, and accountability.
- Monitored inspection and calibration due dates and reported equipment discrepancies accurately and promptly.
- Accurate inspections and inventories of critical assets directly contributed to a 99.72% annual alert rate.
- Provided proper management with real time equipment location, critical status and available quantities.

### **Job Related Training Highlights**

- Missile and Space Systems Maintenance (Apprentice), Feb 2003
- Upgrade Training Skill level 5 (Journeyman), Jun 2004
- Airman Leadership School, Oct 2008
- Upgrade Training Skill Level 7 (Craftsman), Feb 2009
- Nuclear Certified Equipment (NCE) Training for Technicians (Annual reoccurring Training), Jun 2011
- Chains/Cranes/Slings Training (Annual reoccurring Training), Oct 2011
- Safe Custodian Training (Annual reoccurring Training), Dec 2011
- Controlled Area and Document Monitor (Annual reoccurring Training), Nov 2011
- Nuclear Weapons Related Material (NWRM) Fundamentals Course (Annual reoccurring Training), Sept 2011
- Explosive Safety Training (Annual reoccurring Training), Aug 2011
- Hazardous Materials and Waste Training (Annual reoccurring Training), Nov 2011
- Forklift Operator Training (Annual reoccurring Training), Oct 2011

### **Additional Information**

- Current and active Top Secret/SCI Clearance
- Personnel Reliability Program (PRP) Certified
- Air Force Commendation Medal
- Types 40 wpm
- Experienced with Microsoft Office Suite
- Knowledge of OSHA (Occupational Safety and Health Administration) standards and AFOSH (Air Force Occupational Safety and Health) standards
- Knowledge of OPSEC, INFOSEC, Information Assurance, and Total Force Awareness
