+1 785 592 0484

To obtain meaningful long-term employment where I can grow and learn more.

Work Experience

Quality Tech

Fabcon Precast - Pleasanton, KS

August 2020 to July 2021

I oversaw all aspects of manufacturing verifying compliance with company and national standards and documenting all relevant data using word and excel spreadsheets along with the company's intranet site. I also tested and recorded data for concrete, aggregates, cement, and all other materials used in the manufacturing process to verify compliance to standards. I performed calibrations of measuring devices used in inspections and testing and recorded the data accordingly.

Maintenance Staff

Sunshine Boutique

August 2018 to July 2020

Assist in maintaining the Sunshine Boutique shop, assisted with addition to expanding the shop with paint, dry wall repairs, fixture work, along with maintenance and clean up of apartments that are owned above old historic buildings in downtown Fort Scott, Kansas. Would complete new clean up and repair damages at move outs for the next people who would rent the apartment.

Quality Technician

Fabcon Precast - Pleasanton, KS

August 2019 to November 2019

I oversaw all aspects of quality from measurements to visual inspection. I also had to do testing and reporting the data through email and spread sheets

Lead Cnc/nights

Peerless Products inc

November 2015 to June 2019

Setup and operate 3 vertical mill cnc's 2 with 5 axis and 3d blueprints. I also setup and operated manual mills while running the cncs and training other employees to use and operate all equipment. As well as follow and train employees on all company safety and 5s guidelines among other duties

Mill Runner

Neice Products of Kansas

February 2015 to August 2015

Setup and operate manual mill and lathe, assemble tanker trucks, communicate between mechanics department and all other departments and report back to plant supervisor

General Laborer

Wisconsin Packaging Corp - Fort Atkinson, WI
October 2014 to January 2015

Setup and assist with operating a flexor folder gluer

Forklift Driver

Schiller Grounds Care
October 2013 to August 2014

Operate, maintain, and setup laser cnc and cnc brake press

CNC Mill Operator

MPI
May 2012 to August 2013

CNC vertical mill operator using Fanuc controls and tool changes with a tool pre-setter as needed
