

Keith Hull

Maintenance Mechanic - PepsiCo

Firestone, CO

keith_hull@comcast.net - 303-842-8763

I have a very strong background in maintenance and it is what I enjoy doing. I have spent my whole life working on anything and everything to figure out the way things run and fixing things that aren't. I am looking for a career where I can grow and learn with the company while utilizing my talents.

WORK EXPERIENCE

Maintenance Mechanic

PepsiCo - November 2011 to Present

- I diagnose equipment malfunctions and do preventative maintenance on the production lines.
- Make repairs to machines when needed.
- Answer calls when there is a problem on one of the lines.
- I work with pneumatic and hydraulic systems.
- I work with compressors and ammonia.
- I do electrical troubleshooting.

Lead mill operator/Fabrication supervisor

Contech Construction Products - April 2005 to November 2011

- Made corrugated pipe from raw material and fabricated pipe to customer's needs.
- I was the safety coordinator.
- Completed OSHA and American Red Cross courses.
- Was in charge of a small crew to complete orders.
- Rebuilt the facilities heavy equipment machines when needed.
- Did tooling change outs and part replacements when needed.

Production Supervisor

- January 2000 to April 2005

Quality Assembly

- I was in charge of 10- 15 employees to oversee all of their duties were being completed in a timely manner.
- Any time any of the machines would break down it was my responsibility to fix them.
- Set up all new equipment.
- Did the facility maintenance.

Facility Maintenance, Western Electronics - May 1996 to January 2000

- Maintained building and outside appearance was up kept. I did everything from the painting, plumbing and electric work.
- Made repairs to facility machinery.
- Helped set up new machine lines both mechanically and electrically.

ADDITIONAL INFORMATION

SKILLS

I am very self-motivated and a very fast learner. I know how to read schematics and how to use product manuals to make repairs. I'm good with electrical and mechanical systems. I am an excellent welder.
