

KELLEN KERR

Manufacturing Supervisor

Lochbuie, CO 80603
kkerr1989@gmail.com
303-669-9043

I have worked in a manufacturing environment since 2011, ranging with small electronics to large trailers to injection molding and small part milling. Very familiar with ISO certifications and government regulated industries like the FAA and the FDA. Comfortable leading teams from small to large. Quick learner with all computer systems, ERP/MRP systems and lab software. Worked inside LEAN and Six Sigma environments under master black belts. Worked closely with mechanical, electrical, design, software, and test engineers. Worked on several different project teams doing everything from new process development to flow redesign, to building layouts. I have also had the pleasure of working under 2 Master Black Belts in Six Sigma. Looking for opportunities to expand my knowledge.
Authorized to work in the US for any employer

WORK EXPERIENCE

Manufacturing Supervisor

Henry Schein - Golden, CO
September 2019 to Present

Lead and supervise a team of 15 individuals across 2 shifts and 4 departments. Work with leadership and compliance to ensure we are in compliance with all FDA regulations. Lead the Nesting department (CAD) which uses Hyper dent software to design teeth, bridges, arches, crown, abutments, and dentures within FDA regulations. Also lead the team in the milling department working with HAAS and Roland milling machines that run the programs designed by the nesting department. The milling department is also responsible for calibration and maintenance of the machines and well as the sintering ovens. Lead the 3D printing Team. Work closely with the customer satisfaction department, Finishing, QC, and shipping to ensure that we are working together to accomplish the goal of the company.

Manufacturing Lead

WANCO - Arvada, CO
April 2019 to September 2019

Lead and supervise a team of 19 on 3 separate production lines. In charge of hiring and firing. Annual performance reviews. Work with engineering and drafting to create drawings and work instructions for production floor to used during the assembly process. Work with engineering to develop accurate bill of materials. Work with R&D on the development of new products. Lead team in performing weekly inventory cycle counts. Coordinate with planning team for the weeks builds. Order parts from the stock room, fabrication, and paint. Create Jobs inside PLEX MRP management system. Assign work to employees on the production floor. Receive and assign RMA's.

MANUFACTURING TEAM LEAD

GOGO BUSINESS AVIATION - Broomfield, CO

January 2018 to May 2019

Lead a team of seven individuals. Prioritize the day's work for the assembly and test technicians. Work inside Navision ERP system and Agile every day. Work with sales staff to make sure customer needs are met. Collaborate with material handlers and shipping team to ensure on-time delivery of product. Collaborate with test engineering team to ensure automated test equipment is operating correctly. Collaborate with purchasing department to make sure we do not run out of floor stock materials and other non MRP items. Collaborate with manufacturing engineering to edit and create new work instructions and new manufacturing test procedures. Collaborate with engineering during prototype builds. Lead trainer on all assembly and test procedures. Make sure safety and ISO standards are being followed through the assembly and test process. Set goals, stay within budget, ensure inventory accuracy, and promote a positive work environment as a leader. Part of the Audit team. Maintained ISO9001:2015 and AS9100D standards

DOUBLE AGENT

BEST BUY

November 2016 to December 2017

Appliance installation, appliance repair and TV repair within client's homes. Face to face interaction with clients. Organizing the day's work and ensuring client satisfaction. Part ordering and inventory control. Self-managed. Company vehicle maintenance. Trouble shooting and Diagnosing All appliances and TV's, all makes and models.

FAA REPAIR TECHNICIAN

GOGO BUSINESS AVIATION

March 2013 to November 2016

Started at Gogo Business aviation as a material handler, responsible for inventory control, pulling assembly kits according to MRP system. Moved into the shipping and receiving department where I handled all incoming and out going shipments. I did shipping and receiving for a couple months before moving into assembly. In assembly I had work orders assigned to me. I completed the electronic assemblies by following a detailed work instruction and a BOM (Bill of Material). After working in Assembly for a little while I then learned to test all of the equipment that we were building. I became a floater. I worked where ever had the most need. I did this for a couple months before moving to the Repair Station where I attained a FAA Repairman's Certificate. I trouble shot, repaired, tested and recertified all of the products.

SHIPPING AND WAREHOUSE DEPARTMENT MANAGER

ELDON JAMES CORPORATION

May 2011 to January 2013

Lead a department of 12 individuals. Oversaw all shipping and warehouse transactions, did quality control within the warehouse and shipping department. Was a part of the audit team. Maintained ISO 13485:2016 and ISO 9001:2015
