Professional Objective: Certified and talented welder, and an experienced electrical-mechanical machine builder/assembler.

Summary of Qualifications:

- Gas Metal Arc Welding (GMAW)
- Tungsten Metal Arc Welding (GTAW)
- Proficient in reading Operating Manuals and Specifications
- Hand-Operated Tools: Grinder, Chisel, Hammer, Needle Nose Pliers, Steel Head brush and Overhead Crane
- Metal Fabrication Equipment
- Worked with Mild Steel, Galvanized Steel, Stainless Steel, and Aluminum
- Experience in reading Schematics and Blueprints

Relevant Experience:

Welding

- Welded components in flat, vertical, or overhead positions.
- Welded aluminum, stainless steel, and Mild Steel.
- Chipped or grinded off excess weld, slag, or spatter using angle grinders.
- Cut, contoured, and beveled metal plates and structural shapes to dimensions as specified by blueprints.
- Filled holes, and increased the size of metal parts.
- Checked grooves, angles, or gap allowances, using micrometers, calipers, and precision measuring instruments.

Mechanical Assembly

- Read and interpreted assembly blueprints or schematics
- Inspected, operated, and tested completed products to verify functioning, machine capabilities, or conformance to customer specifications.
- Positioned or aligned components for assembly using measuring instruments, such as calipers, gauges, or micrometers.
- Wired electrical components to form assemblies or subassemblies, using hand tools, rivet guns.
- Lay out, drilled or tapped parts for assembly using a drill press.
- Reworked repaired, or replaced damaged parts or assemblies.
- Set up and operated metalworking machines, such as milling or grinding.

Experience:

Fraser Steel Inc.
Robotic Welder

Albertville, MN

H & F Manufacturing
Spot Welder

Maple Grove, MN

Ess Brothers & Sons
Welder

Loretto, MN

Micro Control Contractor
Mechanical Assembly

Fridley, MN

Education:

Hennepin Technical College

Brooklyn Park, MN

Certificate: GMAW I, II, III Welding, GTAW I, II, III Welding and Metal Fabrication.

Skills:

- Product development
- Press Brake
- Drill Press
- Commercial Saw
- Brazing
- Laser Operator
- Trained Vertical Up
- Plasma and Oxy-Acetylene Torch
