Work Experience

Machine Builder

Legend Brands - Prescott, AZ

May 2021 to Present

- mechanical assembler on a factory line building industrial truck mounted gas and electric powered cleaning solutions
- read blueprints to build my assigned section on multiple different assemblies
- use multiple common hand and power tools, wrenches, impact, drills, taps, vices, screwdrivers, cutters, grinders, measuring devices, hammers, etc.
- application of lubricants, adhesives, sealants
- assemble using hardware and parts including nuts, bolts, rivets, hoses, belts, brass fittings, frames, brackets, covers
- assemble and install sub-assemblies including engines, electric motors, blowers, pumps, heat exchangers
- electrical wiring
- minor paint correction
- minimal quality faults
- flexible, capable of filling in other positions as workflow demands with minimal training and oversight
- troubleshooting tool and assembly issues, coordination with coworkers in both assembly and fabrication sections

Metal Bender / Shop Hand

Grove Aircraft Company - El Cajon, CA

May 2016 to May 2021

- bend aluminum landing gear using a hydraulic press
- sand landing gear with orbital and vibration sanders
- can read blueprints, capable of using micrometers, calipers, height gauges, protractors, scales, etc.
- All parts adhere to strict FAA tolerances
- can drive forklifts and previously had an OSHA forklift certification.
- I have loaded/unloaded and ran jobs on CNC machines.
- Can use drills, drill presses, various saws and cutters, press brakes, lathes, etc.
- highly experienced with packaging products for shipping.
- have trained new employees to do jobs I'm familiar with.
