Obtain a position in the machining industry with a growth-oriented company offering opportunity for advancement

Authorized to work in the US for any employer

Work Experience

Machinist

Orchid Orthopedic - Arcadia, CA

February 2022 to July 2023

Set up and operation conventional and CNC Lathes and mills.

Manual programming: M-codes and G-codes

Read blueprints for aerospace and aircraft related parts.

Inspect parts per in process procedure

Machinist

Alva Manufacturing - Placentia, CA

February 2021 to April 2021

Set up and operation Haas Lathes and mills.

Set up and operation of conventional machine equipment such as mills, lathes, grinders, and drill presses.

Manual programming: M-codes and G-codes

Read blueprints for aerospace and aircraft related parts.

Inspect parts per in process procedure

Machinist

Empire Workforce Solutions - Walnut, CA

March 2020 to April 2020

Set up and operation Haas Lathes.

Use of various inspection tools (Calipers, micrometers height gauges etc.)

Manual programming: M-codes and G-codes

Machinist

DMC Power - Carson, CA

September 2019 to March 2020

Set up and operate Okuma CNC Lathe.

Manual programming: M-codes and G-codes

Read blueprints .

Inspect parts per in process procedure.

Machinist

Solo Enterprise - City Industry, CA

January 2018 to August 2019

Set up and operation of conventional machine equipment such as mills, lathes, grinders, and drill presses.
CNC Operation and Set-up part position off sets and tool length off sets Mill and lathes.
Manual programming: M-codes and G-codes
Read blueprints for aerospace and aircraft related parts.
Inspect parts per in process procedure

Machinist

Helicopter Technology Inc - Los Angeles, CA
October 2016 to October 2017

CNC Operation and Set-up part position off sets and tool length off sets Mill and lathes. Manual programming: M-codes and G-codes Read blueprints for aerospace and aircraft related parts

Machinist

Noranco - Corona, CA
August 2015 to August 2016

Set up and operation of conventional machine equipment such as mills, lathes, grinders, and drill presses.
CNC Operation and Set-up part position off sets and tool length off sets Mill and lathes.
Manual programming: M-codes and G-codes
Read blueprints for aerospace and aircraft related parts.

Machinist

Donaldson Inc - Santa Clarita, CA
May 2011 to February 2015

Set up and operation of conventional machine equipment such as mills, lathes, grinders, and drill presses.
CNC Operation and Set-up part position off sets and tool length off sets Mill and lathes.
Manual programming: M-codes and G-codes
Read blueprints for aerospace and aircraft related parts.
Performed fist article inspection and in process inspection.

Petroleum Supply Specialist

United States Marine Corps
February 1983 to February 1992

Petroleum Supply receive, issue and test fuel to meet military and civilian standard for aircraft. In charge and supervised 20 personnel on fuel farm.

Helicopter Mechanic

United States Army
February 1979 to February 1982

Honorable Discharge.

Education

High school diploma in mathematics, and blueprint

Seven-Month Basic Machinist Training Program - Ontario, CA
February 2008 to August 2008

Skills

- CNC and conventional (10+ years)
- Inspection
- CNC (10+ years)
- Quality Control
- Manufacturing (10+ years)
- Machining (10+ years)
- Calipers (10+ years)
- Micrometer (10+ years)
- Blueprint Reading (10+ years)
- CNC Lathe (5 years)
- MATLAB
- CNC Milling Machine (10+ years)
- Precision Measuring Instruments

Military Service

Branch: United States Marine Corps

Rank: E-4/cpl

February 1983 to February 1993

Certifications and Licenses

driver's license
