kieferarnsdorf@gmail.com

320-310-1287

Gain full-time employment and utilize my many skills to benefit my employer and to further my experience and success in the field of Welding/Manufacturing/Machining.

Willing to relocate to: Coon Rapids, MN - Buffalo, MN - Duluth, MN

Authorized to work in the US for any employer

Work Experience

Stainless Steel Pipe Welder

Wigen Water Technologies - Chaska, MN

March 2017 to Present

TIG application on various SS piping. Ranging from 1/2" - 18" and schedules 10, 40, & 80. All fit ups, roots, and covers are inspected and passed by CWI. Have photographs of work if needed. Highly detail oriented and a very patient welder.

Leader

Cambria Company - Le Sueur, MN

September 2016 to February 2017

Leader

Rock Batching Department

Lead two teams of 3-4 guys in the difficult production method of quartz mixing.

Job required attention to detail, carrying 80lb pans of quartz for the majority of the 12 hour shift.

TIG Welder/Fabricator

Hamon Deltak Inc - Plymouth, MN

February 2016 to July 2016

Final Weld Assembly for tanks used in nuclear or coal plant operations. Stainless and carbon steel.

Extensive blueprint reading, 6 month long projects that have meticulous detail and attention. Made my supervisors very proud with my work ethic and skill.

Big Pole Welder / Repair Welder

Millerbernd Mfg Co - Winsted, MN

March 2013 to February 2016

Responsibilities: Reading assigned blueprints, building the graphed pole/base with provided materials, requiring great attention to detail. Extensive print reading and various weldments.

Prototype Technician

Heartthrob Exhaust and Accessories - Litchfield, MN

June 2012 to March 2013

Promoted from welder

Responsibilities: Build prototypes as per client's specifications for mufflers (anywhere from 4" in diameter up to 14"), turbo adaptors, and miscellaneous pipes (varying from 3/8" in diameter to over 6" in diameter)

- TIG aluminized/cold steel w/ filler and fusion
- TIG stainless steel with filler rod, fusion
- Stainless steel MIG, cold steel/aluminized MIG
- Tubular, T-welds, lap, butt, all vertical/horizontal/overhead
- Experience in arc and oxy-acetylene torch welding, plasma cutter (manual/digital)

Department Manager

McDonald's Restaurant - Litchfield, MN
June 2011 to November 2012

Promoted from Shift Manager, Crew

- Managing kitchen, drive thru, and guest services
- Performed maintenance on regular basis
- Completed Certification Program and a ServSafe test to secure promotions

Lead Re-Working department

Faribault Foods - Cokato, MN
September 2009 to January 2010

Directing group to inspect all recalled pallets for defective product.

Education

Civil Engineering

Ridgewater College - Hutchinson, MN
September 2011 to February 2012

Certifications/Licenses

6G certified Pipe Welder TIG

March 2017 to March 2018

Additional Information

SKILLSET: My work ethic separates me from most others because I truly care about the work that I do. I let my work represent what kind of employee that I am. I am a very quick learner, and adapt early on in new work environments. I work as efficiently as I possibly can, but never sacrifice quality. My level of attention to detail and accurate measurement is noticeably high. Also a very pleasant and respectful co-worker who does his best to get along with my peers.
