Objective-

I desire to be a productive and reliable asset for a growing, forward-thinking company. I work best when things don't go according to plan, when things are most difficult, when the pressure is on and results are needed. I welcome new challenges and invite problem's to solve. This is when I go above and beyond.

Summary-

With over nine years of experience working in a fast pace, high stress environment I have the skills to bring a safe and energetic work environment to your company. Have worked as an important role with hands on experience in over 1,000 Emergency Responses to Hazardous Waste spills. Overseeing crews of up to twenty while performing clean up activities on HAZMAT spills and releases. Have performed over 2,500 lab packs and loose packs of various chemicals for safe transportation to the designated disposal facility while staying in compliance with state and federal laws and regulations. Hold current 40 hour Hazwoper training and class B CDL with Tanker and HAZMAT endorsements.

Work Experience-

***General Maintenance and Landscape** --- March 2012 – Present

An in-depth understanding of landscaping principles in order to make projects comparable and similar to areas in the private and public environment. Immense knowledge of the equipment, materials and practices used in grounds maintenance. Profound knowledge of and ability to follow applicable work and safety rules and regulations. Remarkable ability to understand and follow written and oral instructions and exchange information with others. Exceptional ability to safely and effectively use and manipulate mechanical hand tools and light and heavy power equipment, instruments, and devices normally requiring coordination with eyes, hands, and/or feet. Exceptional skills and abilities that include developing plans for organizing multiple tasks, setting deadlines, and preparing for future events. Has the skill and ability to operate small to heavy equipment including hand and power as well as motorized equipment. Strong ability to translate verbal communication into effective written material; (reports and other documents). Huge ability to understand verbal information and ability to exchange information with others. Solid ability to utilize analytical skills and apply results.

*** Philip Service Company (PSC) --- March 2007-March 2012**
Environmental Specialist II

Daily responsibilities include performing pre-trip and post trip inspection of equipment being used, including all documentation to comply with state and federal regulations. Safely ran a designated route of up to eight service stops. Customers included retail stores, industrial chemical plants, Hazardous Waste storage facilities. Services included chemical identification, testing of any unknown chemicals, segregating waste by chemical hazard class. Packaged waste in appropriate container for safe transportation to the designated disposal facility. Successfully built customer relations by training customers in the safe handling and on site storage procedures of leaking waste containers. Transported packaged waste to disposal facility. Warehouse activities included loading and unloading, using a fork lift or manually of waste containers and supplies to proper incoming or outgoing trailers.

***Custom Environmental Services --- April 2003- March 2007**
Environmental Project Manager

Essential role as a first responder to various Hazardous Waste spills threw out Colorado and Wyoming. Worked on-call with a rotating crew, dispatched crew as needed to various job sites. Worked in all aspects of the job set up; ordering equipment, coordinating proper waste profiles for the proper disposal of waste, ordering proper work permits with Department of Transportation, State of the job site and any local municipalities. Managed on site clean up activities utilizing proper PPE (personal protective equipment), heavy equipment such as vacuum trucks, excavators and front end loaders, utilizing testing equipment and proper sampling techniques to ensure all contamination has been cleaned up . Have hands on experience with the safe and efficient operation of many different sized excavators, front end loaders, back hoes, skid steer loader, vacuum trucks and trailers. Ensured accurate inventory control of warehouse supplies by inspecting and documenting all incoming and outgoing supplies on a daily basis.

***Curbside Inc.---May 2002- April 2003**
Warehouse Manager / Shipping and Receiving Logistics

Daily responsibilities included segregating, inventory and packaging of various incoming household hazardous materials. Building customer relations and educating customers of the safe handling and disposal of household chemicals. Coordinating outgoing shipments and proper disposal permits of household chemicals while complying with state and federal regulations. Supervised a crew of up to five during incoming chemicals. Safe operation of various fork lifts. Ensured accurate inventory control of warehouse supplies by inspecting and documenting all incoming and outgoing supplies on a daily basis.
