

Michael Klamm

1415 South Taylor Street • Little Rock, AR 72204 • 501.960.4001 • mcklamm@yahoo.com

OBJECTIVE

Seeking a position that would utilize and expand my experience and skills. Strong qualifications in technical abilities, mathematics, computers, team and client coordination, research, planning, budgeting, cost estimating, report writing, and administration. Reputation for strong work ethic, ability to adapt to various work assignments and environments, ability to learn quickly, and uncompromising devotion to service.

PROFESSIONAL EXPERIENCE

MCCLELLAND CONSULTING ENGINEERS, INC, Little Rock, AR (2011-2013)
www.mcclelland-engrs.com

Project Engineer (2011-2013)

Provided design and consulting services for clients, resulting in development of planned construction projects funded by federal, state, and local agencies. Some of these services included meeting with municipal clients and funding agencies, developing plans and specifications, estimating project costs, designing projects based on budget, coordinating with construction observers and contractors, following federal and state project guidelines, and performing administrative duties while monitoring ongoing project budgets. Projects primarily involved downtown streetscape revitalizations, university and outdoor trails, street improvements, and drainage improvements.

GARVER, LLC, Little Rock, AR (2001-2010)
www.garverusa.com

Project Manager (2005-2010)

Provided design and consulting services for clients, resulting in development of planned construction projects funded by federal, state, and local agencies. Some of these services included developing capital improvement plans, attending frequent funding meetings with agencies and commissions, developing plans and specifications, estimating project costs, designing projects based on budget, coordinating with construction observers and testing firms, following federal and state project guidelines, and performing administrative duties while monitoring ongoing project budgets. Projects primarily involved airports, roadways, and site development.

Design Engineer (2001-2005)

Worked with teams of engineers to provide design services for aviation, roadway, and site development projects. Performed numerous designs relating to pavements, horizontal and vertical alignments, grading and drainage, site layouts, utilities, etc. Prepared plans and specifications, and observed construction on various airport sites making sure contractors performed work according to plans and specifications.
