+1 970 412 3370

- Overall 3 years experience in both commercial and residential HVAC installations but mostly commercial.
- Recently completed 1st trimester of 1st year apprenticeship curriculum through Emily Griffith School of Technology with a final 97.5 grade.
- I have experience in installing RTU's and AHU's to customer specification.
- I have most tools needed for any HVAC install task.
- I listen and follow directions well.
- I am dependable and show up on time with a positive work attitude.
- Highly driven to obtain any certifications and licences to become a journeyman.
- Craftsmanship is very important to me as I take pride in my work
- I enjoy installing ductwork and over coming challenges to move up in the trade.

Authorized to work in the US for any employer
