Summary

Machinist Professional and Marine Corps Veteran leveraging 5+ years of proven experience in quality control, project management and organizational leadership. Possess a comprehensive knowledge in lathe design, CNC coding, and troubleshooting. Proficient overseeing the machining process, selecting materials, calculating dimensions, testing finished products, ensuring conformance to specifications, and setting up machinery programs. Active Secret Security Clearance.

- Customer Service
- Lathe Design
- Quality Control

- Troubleshooting | Repairs
- CNC Lathe | Mill | Coding
- Organizational Leadership

Experience

Machinist

Workshops for Warriors

Completed 640 hours of classroom and hands-on training operating and qualifying in Solidworks, Mastercam, 2D and 3D CNC Machining, Coding, health and safety of machinists, and installation, setup and maintenance of layout drill press, CNC Turning, CNC Milling, and CAD/CAM programming.

- Demonstrated proficiency with 3-axis and 5-axis HAAS machines to include set-up, operation, and production of complex machined parts
- Perform precision measurements and inspected machined parts, interpreted blueprints and schematics and adhered to all geometric, dimensioning, and tolerancing (GD&T) tolerance callouts with 100% success

Team Lead

Marine Corps Recruiting

Jan 2017 - Present (4 years 3 months +)

Oversaw the maintenance and operations of various radio types, logging messages and making changes to frequencies or cryptographic codes

- Installed, configured, operated, and maintained multiple satellite terminals including VSAT Small, Medium, Large, Tampa Microwave 1.3m, am MRT
- Managed basic network security fundamentals, TCP/IP, routers, IP security, tunneling, and network troubleshooting

Service Manager

Chipotle Mexican Grill

Jan 2013 - Jan 2016 (3 years 1 month)

Facilitated training for over 20+ crew members in food safety, customer service and product production

- Maintained various financial report to include store profit and loss statement and validated cash out reports on the registers
- Oversaw the scheduling of crew members to ensure the store was fully staffed as well as monitored and documented the weekly product inventories

Education

Arapahoe High School

High School Diploma

2011 - 2015

Workshops for Warriors

CNC Machining

2021 - 2021

I am currently enrolled in the CNC Machining course where I am working to become certified in CNC Mill, CNC Lathe, MasterCam, SolidWorks. This courses curriculum is a combination of machining theory and extensive hands-on training. This course is 16 weeks long and contains roughly 160 hours of instruction for each subject that is covered i.e. SOLIDWORKS, MasterCam, CNC Lathe, CNC Mill, and CNC Coding

Licenses & Certifications

Certified SOLIDWOKRS Associate - Dassault Systèmes

C-953UZDTMVL

Secret Security Clearance - United States Department of Defense

Issued Mar 2019 - Expires Mar 2029

SOLIDWORKS Essentials for Part Design - SolidProfessor

Introduction to SOLIDWORKS - SolidProfessor

2D Geometry Creation - SolidProfessor

Mastercam Mill 3D - SolidProfessor

Mastercam Mill 2D - SolidProfessor

Skills

CNC Mill • Lathe • Mastercam • SOLIDWORKS • CNC Programming • Analytical Skills • Project Management • 3 axis • GD&T
