## Work Experience

---

### **Merchandiser**

Instore Merchandisers  
March 2018 to Present

Seasonal employment as a garden center merchandiser. Work independently maintaining plants at various customer sites. Use technology to report and track merchandise. Frequent lifting and moving racks, tables, and boxes. Evaluate all plants using company quality control standards. Ensure any plants that do not meet the standard are removed from stock.

### **Temporary assignment in electronics assembly**

Express Employment Professionals  
December 2017 to March 2018

Evaluate all items assembled by systems integrators for quality control to ensure they meet the published standard agreed upon by the customers. Reject any product that does not meet the standard to be re-worked.

### **Air Communications Specialist**

Mayo Clinic Medical Transport  
February 2017 to November 2017

Answered high volume incoming calls. Dispatched air and ground EMS units. Provided excellent customer service to internal and external customers. Daily exposure to medical terminology and medication names. Familiarity with patient confidentiality and HIPPA rules. Familiarity with infection control and blood borne pathogens. Entered information into the patient record using the computer aided dispatch system.

### **Life Link III, Communications Specialist**

Dispatched air EMS  
January 2012 to February 2017

Answered high volume incoming calls. Dispatched air EMS units. Provided excellent customer service to internal and external customers. Daily exposure to medical terminology and medication names. Familiarity with patient confidentiality and HIPPA rules. Familiarity with infection control and blood borne pathogens. Entered information into the patient record using the computer aided dispatch system.

Park Nicollet Health Services, Safety & Security  
2012 to January 2012

Security on a suburban hospital campus. Dealt with people from varied backgrounds including medical professionals and the general public. Used medical terminology and medication names daily. Maintained patient confidentiality. Provided first response medical care to patients and visitors

with medical emergencies outside patient care areas. Assisted medical staff by going hands-on with patients who were combative or uncooperative due to an altered mental status. Required familiarity with infection control and personal protective equipment procedures.
