Authorized to work in the US for any employer

WORK EXPERIENCE

Machine operator, Fork Lift

Metalex - Libertyville, IL - August 2014 to Present

I over see machines that expand metal in the filter department. i am responsible for making sure the machine runs properly and the material is to the specifications of the customers order. This includes: diamond size, strand thickness and strand width. Along with making sure there's no ripples or unsightly material on the finished coil that will be sent to the customer.

I also material handle, working with sit-down and stand-up fork trucks. We take the material off of the uncoilers, bring them to the banding area and green tag them, meaning we verify that all the move tags on the material match up correctly and are ready to ship. Then we put the material on a flipper, putting the coils on to a pallet. We then band them up, weigh and measure its height and all that info is put onto a Move tag. Lastly, we use the stand-up fork truck to put the material away in our Stock.

Machine operator

Gere Marie - Lake Zurich, IL - August 2013 to July 2014

Operate CNC Mill/Lathe Machine

Loads machines/s with work pieces.

Taking measurements, deburring parts, adhering to quality assurance procedures and processes.

Meets production goals in terms of cycle time, quantity and quality.

Leverage and use computer system to document actions by completing required work orders, reporting piece counts and scrap counts etc. (electronic logs).

Maintains safe operations by keeping work area clean and organized and by adhering to safety procedures and regulations.

Performs basic preventative maintenance on machine, (cleaning out chips in machine and wiping down machines daily to prevent dirt build up)

Cook

Portillo's Hot Dogs & Barnelli's Pasta Bowl - Vernon Hills, IL - February 2012 to August 2013

Cooked Burgers, Hot Dogs and Beef sandwiches. responsible for opening the line (prepare food, dishes,etc.) other opening responsibilities: mopping, cleaning outside of restaurant, bathrooms.

Team Member

Clowning Around and Celebration Authority - Mundelein, IL - June 2010 to June 2012

SUMMER JOB

we took inflatable bouncy houses, pool tables, cotton candy machines and other party entertainment to locations. We were responsible for setting up, supervising and taking down the equipment. Usually working in bigger teams for big shows and small two or three person teams for small shows.

Often i was a team lead and would go do shows or drop off/pick ups on my own. As a lead i was responsible for dealing with the costumer and setting up the show/equipment to their needs.
