Hi. I'm Kyle. I'm 23 and have lived in Colorado for about two years. I was born in Chicago and raised in Wisconsin. I enjoy riding my bicycle and being active. My work history started with retail and then morphed into factory/warehouse work. My first job was with Kroger as a produce clerk. After High school I made my way into entry-level factory work. I did receive some promotions and took on more responsibility as time went on.

Authorized to work in the US for any employer

Work Experience

Machine Operator

Relucent Plastics Solutions - Erie, CO

December 2022 to Present

Machine operator at RPS

PS20 Nissel mold injection machine

Quality assurance by looking at parts

Safeway Produce clerk

Albertsons/Safeway - Longmont, CO

June 2022 to November 2022

I was a produce clerk for Safeway. I maintained a fresh produce floor and kept it clean and presentable. Filling holes, rotating stock and keeping the department looking neat and organized was vital. I interacted with the customer and worked the goods as much as possible before the next load. I broke down the load and put dates on everything. Crisping the lettuce and fresh-cut veggies was done every night.

Department manager: Steve Slade

Department lead: Glenda Guzman

Machine Operator/quality Control/shipping

CoorsTek - Golden, CO

February 2021 to January 2022

At CoorsTek I was responsible for producing a consistent flow of ceramic goods through a machine (DAD3221 Die-cutter) and ensuring the quality of the items. I operated a 2 ton press machine making fish-spine beads and I operated a press that made collars for the kilns. Map reading and kiln loading was done by following instructions to keep the parts identified and orderly. Loading the kilns was specific, we had to make the maps correctly and follow them to ensure a correct load.

Department manager: George House 303 271 7100

Department supervisor: Alba webber 720-288-9591

HR: Matt 303 895 6068
