

Russell Lubon

Technician for P&G Alexandria Plant in Louisiana - Proctor and Gamble

235 Fendler Pkwy - Pineville, LA 71360
lubon.russell@gmail.com - (513) 289-8272

Experience operating a High Speed Packing Line/Skid and leading a Armored Car Assembly Module both of which included being accountable for Safety, Quality and Production.

WORK EXPERIENCE

Technician for P&G Alexandria Plant in Louisiana

Proctor and Gamble - March 2011 to Present

Qualified to run Liquid Detergent High Speed Packing Lines 11 through 14. Line 12 would on average put out 22,000 cases or 88,000 bottles of 100 oz detergent per shift. Work includes understanding computer logic and all moving parts involved. Responsibilities include the skid or the soap making process, Aerosol checks for enzyme exposure and team back up quality leader.

Qualified as a skid operator which involves making the liquid soap for the packing lines and pumping perfumes, various dyes and enzymes into the tanks to maintain a good level for production needs. All materials have to be tested by me and submitted to a lab before they can be released into the system. Other responsibilities includes making sure the formulas/concentrations are correct for all Tide/Gain/Era/Cheer brand codes and moving excess material from the skids to the proper holding tanks. Can trouble shoot valves, centrifugal and positive displacement pumps, to understanding issues with header pressure and flow control valves in the system. SAP and RTCIS training with fork lift driving experience. Standard operating procedures is a normal part of my work processes.

Contract Technician for P&G Alexandria Plant

Technical Associates - August 2009 to March 2011

Ran High Speed Packing Lines and was responsible for quality checks. Certified on the fork lift and scissor lift. Trained on SAP as well
