I have a lot of experience that some people around my age doesn't have. I'm open to trying new things and experiencing different work places . I've done manufacturing before at custom pak, I also have experience in electric engineering building circuit boards. I have forklift experience on most lifts, I'm a fast learner and I give my all everyday when I go to work. I'm upbeat and also smiling. Im open to learn any and everything. I mostly have warehouse experience and customer service. I have alot of forklift experience stand up , sit down , mini stand on.

Authorized to work in the US for any employer
