LANCE LABEAU

Roswell, GA | 612.718.4952 | lancelabeau@gmail.com

Dear Recipient,

Hello, my name is Lance LaBeau. I am an experienced TIG welder and fabricator working in the Automotive industry. I specialize in designing and building custom exhaust systems and performance parts. I have been in this industry for going on six years now and I have my Associates degree in Classic Car Restoration. I am originally from Minneapolis, Mn. However, after serving eight years in the Navy and traveling all over the world, I made the decision to settle down in a suburb of Atlanta, Ga. Since being here, I have secured a position with 2-J Racing, a full-service performance race shop. I currently work as their Lead Welder/Fabricator.

I excel at welding stainless steel and aluminum. I am by title, a TIG welder, however, I have experience in MIG and ARC Welding as well. I have a knack for working quickly and efficiently and solving problems as they arise. I have a great passion for this industry, and I am eager to contribute to the growth of your company.

As I stated before, I currently reside in a suburb of Atlanta, Ga., however, I am in the final stages of relocating to the Minneapolis area. I will be available for full-time employment on 05/01/2020, but I am available for interviews, telephone calls and training now. I am looking forward to growing my love for this industry in a city I once called home. I'm happy to jump on a call to talk about your plans for future growth- and ways I can help reach them.

Sincerely,

Lance LaBeau

Welder/Fabricator

Willing to relocate to: Minneapolis, MN

Authorized to work in the US for any employer

Work Experience

Welder/Fabricator

2j Racing - Cumming, GA
