### **Saw order cutting & material operator**

Thyssenkrupp/NESCO Resource - Rochester, NY

March 2018 to August 2022

Through an S.A.P system I process & release orders of customers.

I Read & follow customers directions / descriptions on note orders for a customers standards & preferences to complete the orders,

I find the raw materials that I have to cut on the saw . Weigh the material to customers order before cutting. 3 different types of Saws 1)behringer, 2)Spartan, or 3)Wagoner .. There are different materials with different grades. Copper, Brass, Aluminum, Metals, & Steels. I have to know the pressures & set the speed cut rates on each saw & program them to cut size. I have to know the different types of blades to use on certain material, Certain customers like their materials packaged in box or bundled, weight limits on or off pallets
