

Kenneth J Lemke

7215 Xavier St Westminster, CO 80030 303-412-9148 lemke.kenneth@yahoo.com

Objective: To obtain a position with a progressive company where my education and work experience can be utilized.

Experience: August 2010-August 2013 CoorsTek Ink. Golden, CO 80403

Computer Numerically Controlled (CNC) Setup

Power-driven machines such as lathes, and mills, cut shape and finish materials such as non-fired high purity ceramics and fired high purity ceramics into products or parts. Many of the machines were manual using hand-wheels or levers.

I programmed Mori Seki vertical lathes using G codes and M codes planing the programs that automate machine tools by means of computer generated electronic data. I held tolerances of .0005 using calipers, dial indicator, Ziess, comparator, and plug gauges. Hourly I would document measurements obtained from these instruments. During my time on graveyard I ran a small crew consisting of five people, excluding myself. My responsibilities were to make sure everyone was knowledge of the products and procedures of the company while maintaining each machine and running production. Hourly I made \$14.95 including, 75 cents for shift differential.

Education: High school diploma West Shores High School Salton, City CA

Abilities: Ability to work as part of a team, but I am also highly capable individually. I am a friendly, detail-oriented, and hardworking intellectual who appreciates the value of helping customers and co-workers with a sense of urgency. I am also a quick learner.
