

Leon Martinez

Independent sub contractor

• My main focus in the work force is to be safe and effective and to make it home to my family everyday. All the years in construction I have built up a team leader skill set and drive, working hard towards finishing projects and making my mark in Colorado in a positive way. I've worked in assembly for years and producing as team lead, putting 100% into my business and my product. I've grown over the years and gained a lot of confidence to go into working for myself and doing my own business. I'm searching for a company to grow with and build with and to plant my feet and become a asset for. I love meeting deadlines and making customers happy with quality and proficiency and attention to detail. My motto is do the job right or don't do it at all.

INDEPENDENT SUBCONTRACTOR, YEAR ROUND SERVICES, DENVER COLORADO—2008-2026

I have worked for my family business since I was 14 and my Great uncle James Martinez, started this company and now my cousin James Martinez jr. has taken over the business and keeps me employed throughout the year for specific projects and events. I work mainly doing demolition and hauling , occasional landscaping and excavation and back fill and the typical cleaning and junk removal. Most projects involve some sort of customer service as well as some working with customers. 720-422-4823 James Martinez

Machine operator, Merrit Trailers

Handling the 500 pound press and fabricating sheet metal and organizing lead for assembly operations. Supervisor was Tim Hanson, 303-974-2347

2023-2025

Interior Contractors Inc. *Painting and drywall*

2019-2023 ***Supervisor: Nick Vigil*** 720-982-4198

I starting with this company when there wasn't many people in the painting department and worked my way from Colorado Springs office to the Offices out of Arvada and I've done projects from start to finish. Using bucket lifts and scissor lifts and scaffolding to prep and paint. Spraying, Brushing and rolling and caulking whole brand new developments and doing refinishing for old buildings.
